SERIES 500**

504.9

TITLE: EXTRACURRICULAR ACTIVITIES - CONCUSSION PROTOCOL

Many students within the District participate in extra-curricular activities of a nature whereby physical injury may result. Though the District takes care to ensure all extra-curricular activities are as safe as practicable, it is not possible to remove all danger from such activities, and the District acknowledges that concussions may result. The purpose of this policy is to address situations in which student concussions have occurred or are suspected associated with athletic extra-curricular activities.

This policy only applies to organized athletic league or sport in which any District student participates as an athlete or youth athlete. For the purposes of this policy, athlete or youth athlete means an individual who is eighteen (18) years of age or younger and who is a participant in any middle school, junior high school, or high school athletic league or sport. A school athletic league or sport shall not include participation in a physical education class.

The superintendent and school administration will establish administrative procedures to enforce this policy.
