

**EDUCATIONAL PROGRAM
SERIES 600**

603.1

TITLE: FIELD TRIPS

Elementary and middle/high are to arrange for field trips as they apply to the various subject areas.

Field trips are not compulsory; yet, when used in correlation with particular teaching units, the teaching program is enriched.

Administrative permission must be obtained and arrangements for school bus transportation made with the principal.

Notification will be sent home from the school to parents/ or legal guardians notifying them of the trip date and time along with a district liability/permission form. The district's liability/permission form must be signed by the parent or legal guardian, submitted to the school, in order for the child to attend a field trip. Parents wishing to not allow their child to attend the field trip will be asked to keep their child home during that particular time period. If the parent/guardian is unable due to conflicts with work, etc, the district may attempt to assist the parent by placing the student in another classroom or area for the day.

No child is to be transported for any reason without a district liability/permission form signed by a parent or legal guardian in any district vehicle or bus.
