

Parent Survey

How to help.

Each year we survey parents of students to gain insight into their perspective. Please take a few minutes to share your thoughts and feelings about your child's school by visiting the front office and taking a survey. Your comments are important and help us see a new perspective.

The survey is confidential and does not require your signature.

The survey will be open beginning of May through the end of May.

Thank you for sharing your input and suggestions.
